

100

Mr. R. FORSTER said that he had called attention to the state of the House last night which he thought was an important question ought not to be brought up again at this time. It was too often the case that the members were taken and they did not know what the chairman was saying. He hoped that the House would take notice of this. There was plenty of opportunity for discussion. He expressed the waste of time in a debate so much as this. There was plenty of opportunity for discussion, and he hoped the House would take it in.

MR MACINTOSH admitted that the subject raised in his discussion last night was important; that the subject itself was not creditable to the House, for the Government were largely recriminations between several of the old men who were occupying the Government benches, and he observed that both could stand in and out of the Ministry. He also said that the San Francisco branch of the movement was of great value; and the colony had not been treated by the P. and O. Company.

He said that he was not aware that there would have been any complaint of the matter if it had been discussed in the Chamber, so long as they were not within the

[illegible]

MR. TOLSON'S GUARANTEE—A security of \$7000 per annum for each member of the committee was guaranteed by the president of the cable; two-thirds of such security to be maintained at the expense of New Zealand, and one-third by the colony of Victoria. The cost of the cable was estimated at £1,000,000, and it was proposed that the cable should be worked by the cable company, and not by the government, and therefore for each additional word, &c. the company would receive a certain sum. The company's regulations were embodied in an address, and presented to the assembly.

Agreed to.

PETITIONS PRINTED.

MR. DRIVER moved,—"That the petition presented by him on 8th June, from citizens of New South Wales in favour of the passing of the Railway Extension Bill, be printed."

MR. H. B. BROWN moved,—"That the petition presented by him on 8th June, from Stephen Skelton, be printed."

MR. WIDOM moved,—"That the petition presented by him on 8th June, from the master and students of Central School, requesting the passing of the Railway Extension Bill, be printed."

MR. MACINTOSH moved,—"That the petition presented by Mr. Torrie on 8th June, from the ministers of the Free Church of Scotland, protesting against the passing of the Railway Extension Bill, be printed."

MR. CARBON moved.—That the two petitions presented by him on 6th June, from the minister and members of the Beattie-street Wesleyan Church, and from the minister and members of the Woolloomooloo Baptist Church, requesting the passing of the Railway Retention Bill, be printed.

MR. DAVIES moved.—That the two petitions presented by him on 6th June, from the minister and members of the Beattie-street Wesleyan Church, and from the minister and members of the Woolloomooloo Baptist Church, requesting the passing of the Railway Retention Bill, be printed.

MR. GIBSON moved.—That the two petitions presented by him on 6th June, from Archbishop, the students of St. John's College, the Deacons of the Anglican Church, and the officers and members of the Church, Phillips-street, requesting the passing of the Railway Retention Bill, be printed.

MR. HENRY moved.—That the petition presented by him on 6th June, from the members of the Good Templars, requesting the passing of the Railway Retention Bill, be printed.

The motion was carried.

AUSTRALASIA COAL CO.

MR. PILCHER moved for leave to bring in "a bill to enable the said company (limited) to construct a railway from certain collieries in the State of New South Wales."

The resolution was agreed to. The bill was introduced and read a first time.

LANDS ACT AMENDMENT BILL

Mr. CHILBERT moved: That the bill be now read a third time.

Mr. NELSON said he could not allow the bill to pass at the third reading without a vote. He would therefore intend to vote against the third reading, because he disapproved of the bill. At first the Government majority in favour of a second reading was declared by Mr. NELSON, and it was a question whether they were beyond that, and had attempted to pay a bill dealing with the whole land question. The bill they had introduced was not a bill dealing with the whole land question, but one taking up with the land laws of the colony. It mainly placed free the hands of capitalists and squatters (Mr. NELSON) who were the main object of the bill.

The bill was entirely opposed to the search of the land by squatters. The increasing of the size from five acres to ten acres was a very important thing. It was a very important thing under the law of 1861, a capitalist could make millions of pounds or to purchase any number of small lots; but the land had to be surveyed in blocks of 100 acres.

[illegible][illegible][illegible]

ments. What would be done without? His position
failed the conditions of improvement? His position
would see that, as these clauses were drawn, one de-
clared with another, and in order to make the bill
smoothly, it would be necessary for some alterations
to be made in the other Charter. It was too late for
to be done there, but he felt it his duty to state
the impossibility of working the third reading
presented to them for the bill at all.
The clause ought to have been dropped
from the bill. The first clause of the
16th clause of the present law.

SUMMARY PER P. AND O. STEAMER NUBIA.
The summary for transmission via Suaz, in the branch steamer Kilwa, will be published in Friday's issue of the Herald.

Woolens, Clothing, Damaged Flannels, and Greys, &c.—
Cass, Moore and Co. request us to call the attention of Warehousemen, Carriers, and others, to their unserved sale of this class of goods, at their Sale Rooms, 167, Pitt-street, this day, **Wednesday at 11 o'clock.**

With a win, and in addition to someone fencing there was plenty of room for scrub riding, and two or three "arlets" had narrow escapes of standing on their heads owing to the hills being plentifully supplied with holes. A sharp turn to the right, two good fences, and then the Master, finding that the dier had "cleared out," gave the word to stop, and a move was made for the Coach and Horse, where a capital luncheon was discussed, and the huntman returned to town, well pleased with the morning's sport, but rather disappointed at not having run his stag-pole to bay. The next meet is to take place at Parramatta, on Saturday next, when a dingo will be hunted.

London-street arab to the life; his interpretation was a most masterly one, and the part had evidently been carefully studied. Mr. J. G. Joyce, as the Anglo-Yankee Philip Deane, infused an immense amount of gaiety and humour into the character. As Mrs. Iretan P. Bembridge, Miss Tilly Andrews, though rather overweighed, gave a credible rendering, and her costume was in very good taste. Mr. W. Wyse cannot be overgratified upon his conception of George Dallas; and his namesake's idea of the costume and deportment of a London dandy on the continent, was a centre in the satire. The other parts

Mr. Whalley would not read his question came on; and again kept away; but Mr. Wyke Doctor on Thursday Mr. Dymally answered it. He read his question, and Judges, which belonged excluded no control over the greatly as he respected trial by jury to Parliament; but that juries were infallible, and "I could not believe of the sayings and doings of the man I have observed him, member for Peterborough, I bet for Stoke and the which they, in some degree, shew that is an opinion Whalley had just presented a petition to." As Mr. Commission to upset the verdict in trying for a Royal

attained such a world-wide reputation, is manufactured by Taylor, Brothers, under the able homoeopathic advice, aided by the skill and experience of the inventors, and will be found to combine in an eminent degree the purity, fine aroma, and nutritious property of the fresh nut.

TAYLOR'S CHOCOLATE, made in one minute without boiling.

The five articles are prepared exclusively by TAYLOR, Brothers, the largest manufacturers in Europe, and sold in 111½ STALLS and packets by storekeepers and others all over the world.

It is prepared from Mr. Brothers' celebrated "Challenge" brand, prevents fermentation, and at the same time retains the pungency and purity of flavour, for a *decade* and a half.

water, from Adelong on 6th instant, reports: "No change in the depth of the water, but the water has been sunk an additional 4 feet, making the depth 648 feet, and the prospects of cutting a good channel to the straits, coming from the south, are steadily improving." The vein previously mentioned in now 6 inches wide, and the slopes Nos. 2 and 3, on the 526-foot level, have been carried on as usual without any material change. 500-foot level. Slopes 1 and 2 are being pushed ahead; the ledge in the 1:1-8 to 13 inches wide, heavily charged with muscovite, and shows gold; No. 2 is not far enough ahead yet; for a good stone, the ledge is present being broken up and mixed with slate. No. 3 is being pushed ahead.

not given. There is a good inquiry for sheep but few coming forward. Withers may be from 8s. to 9s., and ewes at from 7s. The principal local sales have been:—(F. and A. Cox's) at 8s.; and 600 wethers, about 100 ewes, and more especially good ones, at 10s. wethers, are eagerly inquired for with 10s. 6d.

band. Best fish from \$3 to \$10, and others to \$7, according to quality. Some 20 head had in the local market during the week, at prices from \$6 to \$9 17s. 6d. Useful horses, bays and blacks, still continue in demand, and prices recent quotations.

HILL END.

[FROM OUR CORRESPONDENT.]

expected of me, I believe, to make some remarks on the late crushing. As I have been unable to come to the result than "between five and six hundred cannot, even if I would. It will be a great deal more."

no time back go for a report a revised of the Hill, and amongst others Paxton's share. How far this exhibit was correct readers to determine; but, true or false, it was as anything but laudatory, and I was credited as a "down" on the claim. Now, I have no on the claim, nor do I think my report properly read, would be, to think

simply remarked that if, whilst the
fund was supplying payable stone, the bwer
had been got into position to take its place, some
amount would be saved, and I was not far out.
I was translated to mean that the mine was done.
of the kind! I believe it has not yet been won
on, and am of opinion that many will rue the
late, now successful, attempt.

on this. I was pretty sure the upper ground was out (the seven hundred ounces of specimens heavy, and were not easy etc), and I knew the bag from the Star of Ponca vein in the bottom of the box. I also knew that in sinking below the surface, the bag taken from the bottom, unless helped up by a

...removed, would be poor, perhaps not payable, if it would have shown better generally to be removed when the removing would cost less, even supposing it did not quite pay, thus lay open what I expect will prove painful object now is to warn investors against roundies panic—voices cannot be always, are blank patches even in the richest of

so great item in management is by holding it
keep up a tolerably regular return. The fact
style, as I call it, is satisfactory to no legis-
lator. I may add to these remarks, that the
ones in the Star of Peace have been
some distance above the present level
and we have every reason to suppose
on's will prove equally good. There

to be frightened about? Let an engine be
readily as possible, for horses cannot ad-
vance at great depths, and do not despair.
A record very good gall in the Star of Peace
feet. It will be recollected that the bottom
between the 410-foot and 395-foot levels, and
side further steps to take the place of these
and to boundary the shaft, has been made, and

down over 60 feet below the level. This shows a payable vein with it all along, but the last shows something better. The vein has enlarged to 8 inches—8 inches is its average size—and carries good gold. This looks well, not only for the show for the Hill generally, and shows that there is looking for gold at a depth. The major part of

the dirt and come from the bottom; and had raised from that part of the mine alone, although not so great as to tons, would have made ounces per ton. . . .

As just been heard at the Warden's Court that the same will considerably affect miners and mining. The Her Majesty have sued Oxon's for demagogues arising from the water from the latter into the former.

In this case to which I would draw attention is a row in from workpigs deserted as unpaid-
mann tributes started in their claim, Ozon's
iving transferred their operations to a part of
no way affecting the water question, also the
are starting. The Hermanns were massed
owing to their not being in a position to prove
of a proper notice of the danger. But the words

by the Act, Oxon's Company is bound to take proper notice: Oxon's man has been let on tribute, but I believe have since changed their mind. They were the first to place 10 per cent of their tribute account until it reached the sum of ten when the manager was to work on an understanding that they were to work. When the manager

gammated G. M. Co.'s property has just been sold, I believe, for two years, the tributors paying on gross yield of gold. I believe they will go on the Frenchman's vein. Along the Frenchman there is a bit of good stone.

men—about 48 tons of vein stone going a 19 dwts. per ton, the leader still giving the shareholders are somewhat disheartened, all but working miners, but are determined to go with renewed hope and spirit.

...ing from Mat-weon's shaft to their south
over 400 feet below their own boats. Nothin
ken down since last report. The water has
wavy, the men being unable to get to work till
so putting shaft in order on Stevens' win for
ward.—Nothing new here, save that in the
they appear to be on or near the off end of the

This drive, following the hanging-wall of being going lately more west than north, but as though the vein was about to resume its strike. The manager is back-striking the vein two blows, which he finds payable; and before the north of the second blow he will find good ore.

heard of anything fresh down the Hill. The vein is still driving north and south from the two north in the bottom winzes, where the disturbed, and does not show much gold. The ore is the stone yet considered payable, but

... is sinking in main shaft, and sloping in it as usual. In the former the pascy vein but shows nothing payable, so it has been known to be below it.

more claims in this locality to start work upon completion of the Oriental battery. The dimensions. The reefs are large, and fine yields obtained from them; but the want of fuel has killed them. A fine battery is on the point of completion, and the proprietors only wait payment to get it to work. If it is taken away from another coming, as now is the time for

cora, the Sydney and Tambaroora are still
reef; they expected to have had there this
and in forming their calculations. And the
company is underway to get out stone from
reef on the company's property, which is
old a profitable output. This is the work that

MARRIAGE OF JUSTICE.—Justice will, of course, be secured, even in the best-regulated community. A man was accused of having stolen a

... from a dealer in the Temple—the
... of Paris. There were several wit-
... the evidence was rather meagre, and so
... was acquitted. He was told that he
... without a stain on his character; but
... stood motionless." His solicitor, in
... successful defence, he mainly one

...hinted to him that he w
art, but still he stayed. There being no
to be heard, the court was getting empty.
The auditor, getting impatient, asked with some
it was the cause of this strange behavior.
The injured man leaned over the side of
whispered in his ear. "The fact is, sir,

"Because, sir, I am now wearing the I stole."
